

Plymouth Park Department

Spring 2020 Newsletter

The Plymouth Park Department is offering some guidance in regards to usage of the Park System during COVID-19. At this time our facilities are closed. This includes all ball fields, tennis courts, skate park, play structures, and dog park. Our pavilions, Webster Center and Conservation Clubhouse, are closed until May 31st. We will put out new guidance, recommendations, and openings of our facilities on our Facebook page and on the City of Plymouth's website under the Park and Rec tab when instructed by the Governor and local officials. At this time we ask that you practice social distancing at all times while in the parks.

We encourage use of our trails at this time and hope you can get some fresh air and take in what nature has to offer.
